Contents Volume 132, 1997

Special Issue: Geochemical Event Markers in the Phanerozoic. Edited by M.M. Joachimski and H.H.J. Geldsetzer

Preface 3

Extraterrestrial impact events: the record in the rocks and the stratigraphic column
R.A.F. Grieve 5

Re–Os isotope systematics as a diagnostic tool for the study of impact craters and distal ejecta
C. Koeberl and S.B. Shirey 25

Collisions with ice/volatile objects: Geological implications — A qualitative treatment
P. Wilde and M.S. Quinby-Hunt 47

Strontium isotope stratigraphy: potential resolution and event correlation
J. Veizer, D. Buhl, A. Diener, S. Ebneth, O.G. Podlaha, P. Bruckschen, T. Jasper, C. Korte, M. Schaaf, D. Ala and K. Azmy 65

Strontium isotope systematics of conodonts: Middle Devonian, Eifel Mountains, Germany
S. Ebneth, A. Diener, D. Buhl and J. Veizer 79

The isotopic composition of sedimentary sulfur through time
H. Strauss 97

Organic carbon $\delta^{13}C$ variations in sedimentary rocks as chemostratigraphic and paleoenvironmental tools
B.N. Popp, P. Parekh, B. Tilbrook, R.R. Bidigare and E.A. Laws 119

Comparison of organic and inorganic carbon isotope patterns across the Frasnian–Famennian boundary
M.M. Joachimski 133

An organic carbon isotope record of Late Ordovician to Early Silurian marine sedimentary rocks, Yangtze Sea, South China: Implications for CO_2 changes during the Hirnantian glaciation
K. Wang, B.D.E. Chatterton and Y. Wang 147

Oxygen isotope evolution of Phanerozoic seawater
J. Veizer, P. Bruckschen, F. Pawellek, A. Diener, O.G. Podlaha, G.A.F. Carden, T. Jasper, C. Korte, H. Strauss, K. Azmy and D. Ala 159

Geochemical events documented in inorganic carbon isotopes
W.T. Holser 173

Geochemical changes across the Proterozoic–Cambrian transition in the Durmala phosphorite mine section, Mussoorie Hills, Garhwal Himalaya, India
D.M. Banerjee, M. Schidlowski, F. Siebert and M.D. Brasier 183

Global carbon isotopic events associated with mass extinction and glaciation in the late Ordovician
J.D. Marshall, P.J. Brenchley, P. Mason, G.A. Wolff, R.A. Astini, L. Hints and T. Meidla 195

Carbon isotope event markers through the Wenlock–Pridoli sequence at Ohesaare (Estonia) and Priekule (Latvia)
D. Kaljo, T. Kiipli and T. Martma 211

Carbon and oxygen isotope record across Pridoli to Givetian stage boundaries in the Barrandian basin (Czech Republic)
J. Hladíková, J. Hladil and B. Kříbek 225

Oxygen and carbon isotopic composition of Dinantian brachiopods: Paleoenvironmental implications for the Lower Carboniferous of western Europe
P. Bruckschen and J. Veizer 243

Sea-level changes and geochemical anomalies across the Cenomanian–Turonian boundary: Pecínov quarry, Bohemia
D. Uličný, J. Hladíková, M.J. Attrep Jr, S. Čech, L. Hradecká and M. Svobodová 265

Deep-water agglutinated foraminiferal changes and stable isotope profiles across the Cretaceous–Paleogene boundary in the Rotwandgraben section, Eastern Alps (Austria)
D. Peryt, R. Lahodynsky and T. Durakiewicz 287

Evaluation of the application of rare-earth elements to paleoceanography
W.T. Holser 309

The variation of the trace-element content of fossil biogenic apatite through eustatic sea-level cycles
B. Laenen, J. Hertogen and N. Vandenberghe 325

Palaeoceanographic linkage of geochemical and graptolite events across the Silurian–Devonian boundary in Bardzkie Mountains (Southwest Poland)
E. Porębska and Z. Sawłowicz 343
Estimation of primary productivity in the Toarcian Tethys — A novel approach based on TOC, reduced sulphur and manganese contents
I. Vető, A. Demény, E. Hertelendi and M. Hetényi 355
The distribution and geochemistry of platinum-group elements as event markers in the Phanerozoic
N.J. Evans and C.F. Chai 373
Search for impact remains at the Frasnian–Famennian boundary in the stratotype area, southern France
C. Girard, E. Robin, R. Rocchia, L. Froget and R. Feist 391
Platinum group element enrichments and possible chondritic Ru:Ir across the Frasnian–Famennian boundary, western New York State
D.J. Over, C.A. Conaway, D.J. Katz, W.D. Goodfellow and D.C. Gregoire 399
